About me ———

I am a transport planner with 10 years of experience from València (Spain) currently enrolled in a PhD programme at the University of Leeds. My research project entitled 'Cycling and socioeconomic disadvantage' examines quantitatively socioeconomic inequalities in cycling for transport and leisure, bringing together my professional background (transport planning) and two of my main interests (cycling and social justice).

Work experience

Postgraduate Research Student

2017-present

Leeds Institute of Data Analytics (LIDA), Leeds (the UK)

https://lida.leeds.ac.uk/

Transport Planner

2005-2015

INTRA, SL, Barcelona (Spain)
